### Description

Acuity Environmental Services (AcuityES) offers an excellent opportunity for a Project Manager in the Indianapolis area. This position is for a qualified individual who wishes to pursue a career with a dynamic, employee-friendly, smaller company that conducts state of the art remedial projects throughout the United States.

The successful candidate will ...

- Have a proven track record of strong performance in the management of field personnel, subcontractors, and all other aspects of environmental consulting projects, supported by references;

- Be familiar with the different remedial techniques associated with chlorinated, petroleum and heavy-metal impacted sites;
- Have the ability to prepare draft and final reports for Senior Project Manager review, inclusive of field techniques, data interpretation and presentation, and conclusion/recommendations.
- Be able to direct staff, as well as participate in field investigations including air, soil, surface water and groundwater sampling programs; and
- Have knowledge of Indiana Department of Environmental Management (IDEM) Technical Requirements for Site Investigations and Remediation;

### **Requirements**

- A minimum of Bachelors or Masters degree in Geology, Engineering or Science;
- A minimum of 4 years of environmental engineering/consulting experience is required;
- Must have excellent verbal and written communication skills;
- Professional Engineer (PE) or Licensed Professional Geologist (LPG) are a plus; and,
- A Background Check and a Drug Screening are required.

NO RECRUITERS

NO VISA SPONSORSHIP AT THIS TIME
